FARMS 5.0

Future-Aligned Resilient Modern Systems for Farmers Adhering to Industry 5.0 Principles towards Sustainable Agriculture

About the project

FARMS 5.0 is an international initiative dedicated to supporting the transformation of European agriculture towards more **sustainable, resilient, and climate-smart farming systems**, in line with the principles of **Agriculture 5.0**. The project addresses the growing environmental, technological, and socio-economic challenges faced by the agricultural sector by strengthening the **skills and competences of farmers, agricultural advisors, and vocational education and training (VET) professionals**.

What Does FARMS 5.0 Do?

Through **transnational cooperation**, FARMS 5.0 project develops and shares:

Modern **training tools** and learning methodologies

Innovative **educational materials** for agricultural VET

Practical guidelines and policy recommendations

Participatory approaches based on real farming needs

FARMS 5.0

Impact and Added Value

By integrating **sustainability, innovation, and education**, FARMS 5.0:

Supports the modernisation of agricultural VET systems

Encourages the uptake of sustainable farming practices

Strengthens skills for the green and digital transition

Contributes to a fair, green, and resilient future for European agriculture
